

# Owensboro Catholic Middle School

## 2019-2020

Just a reminder... purchasing an internet-ready device is completely optional! OCMS does not endorse, or require, any specific Chromebook model or provider. However, our local Best Buy Store in Owensboro has provided us with a few models that they currently have in stock. They also offer a student discount. You are welcome to look at these items, choose another option from Best Buy, or you may choose a Chromebook from another store such as Walmart, Target, or Amazon. It is your choice!

However, we stipulate that if you do purchase a device for your child that it must be a **Chromebook** and **NOT a Laptop**. A Chromebook can be monitored through our OCS filter software, whereas a laptop could potentially have information loaded onto it from outside OCS.
