

the VACCINE CLINIC

HIGHWAY 54

3000 Alvey Park Dr. West Owensboro, KY 42303 | Phone 270-926-4080
Locally owned & operated by Kim & Carl Lewis

Dear Parent/Guardian,

We are contacting you in regards to the recent immunization changes mandated by the Kentucky Department for Public Health that will be in effect for the 2018-2019 School Year, per 902 KAR 2:060. This change affects all students who attend public or private schools in Kentucky.

Below are the two additional vaccines students are required to have. Parents should check child's vaccine record to see if they have had the following immunizations:

Hepatitis A Vaccine

All students K-12 are now required to receive a 2-Dose Series of Hepatitis A Vaccine, administered 6 months apart. In order to meet the school deadline, the first dose must be received no later than **February 2018**.

Meningitis Booster

Students are required to receive a Quadrivalent Meningococcal Booster. Students may receive booster beginning at age 11, but must have no later than 2 weeks after 16th birthday.

To better serve the families in our community, Nation's Medicines Hwy 54 is now offering these immunizations at **the Vaccine Clinic** located inside our pharmacy at 3000 Alvey Park Dr West. Please call to speak with any of our pharmacists to discuss your child's vaccinations. Let us help make this new requirement quick and convenient!

270-926-4080

Thank you,
Carl P. Lewis, RPh
